Push Button Upgrade For Venturi Entryway Foam Sanitizers (Specify At Time Of Purchase)

MODEL # 976001PB

OVERVIEW

The Push Button Upgrade allows any Venturi Timed Entryway Foam Sanitizer to be activated via a remote push button and apply foam to the entryway floor, "on-demand", for a set amount of time. Timer settings are field adjustable. This upgrade must be specified at the time of purchase.

Key Features

- This factory-installed upgrade is available for any venturi Timed Entryway Foam Sanitizer at the time of purchase
- Applies foam to the entryway floor when the large remote button is pressed
- Adjustable timer controls the length of application, preventing costly over-application
- Chemical resistant wetted components ensure durability and years of reliable service with minimal maintenance
- Available for 24VAC electric (#976001PB-24V)
- Available for Pump Fed Entryway Foam Sanitizers (#976003PB)
- See Catalog 6 for other entryway configurations

Includes

- NEMA rated control box with run timer
- Remote push button with 30' wire
- Water activation solenoid
