Sentinel™ 1-Gallon, F-Style, Hand Sanitizer Dispenser, Wall Mount Style

MODEL # 976966

OVERVIEW

Stainless-Steel Sentinel™ Hand Sanitizer Dispensers manage dispensing of hand hygiene products (sanitizer or soap) and other liquids or gels from jugs equipped with spring-loaded pumps. The wide push lever is adjustable to dispense a controlled amount of product and limits pressure that can break the pump. The heavy-duty design is perfect for high-traffic/high-use locations as with food preparation areas, hospitals, military facilities, retail stores, professional offices, entertainment venues and countless other locations. Sentinel Dispensers are offered as wall mount, counter top, and floor styles in various models with stainless steel racks to hold most standard jugs — half-gallon, 1-gallon round / square (standard or locking), and F-Style.

Key Features

- Heavy-duty stainless steel push lever deters users from abusing plastic chemical pumps
- Wide push lever for easy activation via hand, wrist, or elbow
- Adjustable push lever range of motion
  - Prevents over-dispensing
  - Prevents full pump spring compression and lid impact
- Ideal for transition zones to prevent cross-contamination
- No electricity required - no batteries or electric costs
- Does not require expensive, specially-designed chemical packages
- Dispenses from any 1-gallon, F-style container (rectangular with off-center opening)
- Available for round or square 1-gallon jugs (#976956)
- Enhances cost savings from bulk packaged chemicals
- Jug rack can be raised or lowered to fit most spring-loaded chemical pumps and jug heights
- Jug rack mounting holes are compatible with other rack sizes
- Easy to clean and disinfect contact points
- All stainless steel construction - built to last!
- Made in the USA
- This model mounts to a wall or any vertical surface
- The Sentinel is available in wall, counter, and floor styles - and with chemical racks of various sizes
- Hands-free dispenser available with foot-pedal activation (#976906)
- See other Lafferty sanitation equipment in Catalog 11 and a Sentinel guide in the Lafferty Learning Center

Includes

- Stainless steel mounting plate
- Stainless steel push lever dispenser (F-style)
- Volume adjustment bolt
- Stainless steel, electropolished, wire frame jug rack (1-gallon, F-style)

REQUIREMENTS

Chemical Container

1-Gallon, F-Style
