5-Way FPS Transfer System

MODEL # 941605

OVERVIEW

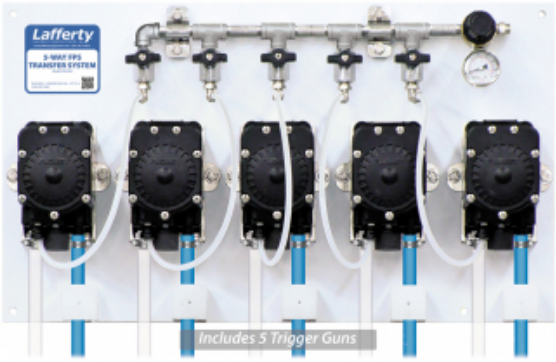
The 5-Way FPS Transfer System is a chemical transfer system for filling any sized container with chemical concentrate or ready-to-use solution. This unit uses compressed air to power FloJet air pumps which draw 5 chemicals from bulk containers and dispense them into any other containers through 15 foot discharge hoses and trigger guns.

Key Features

- Transfers chemicals from bulk containers into any sized container or cleaning equipment safely and without mess
- Increases employee safety and labor efficiency
- Transfer chemical concentrate or ready-to-use solution
- Quick, easy set up
- Requires only compressed air to operate
- Pumps mounted on a unique Lafferty quick-release, stainless steel bracket to easily replace pumps
- The convenient positive shut-off trigger gun prevents the unit from running unattended
- Discharge hose stabilizer coupling protects pump discharge outlet from abuse
- Chemical resistant wetted components ensure years of outstanding performance with minimal maintenance
- See transfer systems for fewer chemicals and other chemical management systems in Catalog 9

Includes

- Polypropylene mounting panel
- Air regulator and air pressure gauge
- 5 - FloJet AODD Pumps with Santoprene diaphragms
- 5 - Stainless steel quick release brackets
- 5 - 15' chemical pickup tubes and discharge hoses
- 5 - Polypropylene trigger guns with stainless steel and EPDM internal components



REQUIREMENTS

Chemical Concentrate or Ready-to-Use Solution	
Compressed Air	up to 4 CFM per pump

OPTIONS

Stainless Steel Hose Racks

Small Stainless Steel Hose Rack	# 224145

Drum & Tote Stick Lengths & Seal Materials

Drum Stick, 33" (Viton or EPDM)	# 491643 / 491643-E
Drum Stick, 48" (Viton or EPDM)	# 491648 / 491648-E
Drum Stick, 54" (Viton or EPDM)	# 491645 / 491645-E
Tote Stick, 33" (Viton or EPDM)	# 491653 / 491653-E
Tote Stick, 48" (Viton or EPDM)	# 491654 / 491654-E
Tote Stick, 54" (Viton or EPDM)	# 491656 / 491656-E

Alternate Seal Materials (Santoprene/EPDM Standard)

UPGRADE: Viton Pump & Viton Trigger Gun	# 941600-VT
UPGRADE: Kalrez Pump & Viton Trigger Gun	# 941600-KT
UPGRADE: Kalrez, ATEX Pump & EPDM Hoses	# 941600-ATEX

Alternate Discharge (Trigger Gun Standard)

UPGRADE: Stainless Steel Ball Valve & Wand	# 941600-X

APPLICATIONS

- Filling Floor Scrubbers/Tank Foamers
- Pump-Up Foamers
- Agriculture/Horticulture
- Animal Health
- Vehicle Wash
- Dairy
- Food & Beverage
- Hatchery
- Industrial
- Janitorial/Sanitation
- And Many Other Applications!
