OVERVIEW

4-Way Drum Sticks are chemical pick-up assemblies for use with venturi systems to draw chemical concentrate directly from a drum. Comes complete with a Hastelloy chemical strainer, polypropylene chemical check valve (with a choice of EPDM or Viton seals), four 1/4" hose barbs to connect to suction tubing, and plugs for unused ports. Custom lengths are available on request. Standard lengths fit common drum/tote depths. Custom lengths available upon request. *4-Way Drum Sticks can ONLY be used with Mixing Stations and units with 491402 / 491401 or other spring-loaded check valves.*

SAFETY & OPERATIONAL PRECAUTIONS

This page intentionally left blank.

PREVENTIVE MAINTENANCE: When the unit will be out of service for extended periods, place chemical tube(s) in water and flush the chemical out of the unit to help prevent chemical from drying out and causing build-up. Periodically check and clean chemical strainer and replace if missing.
