**WARNING! READ ALL
INSTRUCTIONS BEFORE
USING EQUIPMENT!**

OVERVIEW

Safe Flow Pail Sticks™ provide safe and convenient dispensing of chemicals from containers with 3/4" knockout lids. The threaded collar slides along the suction tube and adjusts to the depth of the pail to ensure that the suction strainer sits on the bottom of the pail. Available to fit various container depths.

SAFETY & OPERATIONAL PRECAUTIONS

This page intentionally left blank.

PREVENTIVE MAINTENANCE: When the unit will be out of service for extended periods, place chemical tube(s) in water and flush the chemical out of the unit to help prevent chemical from drying out and causing build-up. Periodically check and clean chemical strainer and replace if missing.
