

Safe Flow Pail Sticks™

MODEL # 491622

OVERVIEW

Safe Flow Pail Sticks™ provide safe and convenient dispensing of chemicals from containers with 3/4" knockout lids. The threaded collar slides along the suction tube and adjusts to the depth of the pail to ensure that the suction strainer sits on the bottom of the pail. Available to fit various container depths.

Key Features

- Keeps out contaminants, reduces odors, and prevents chemical splashing and spillage
- Unique, heavy-duty, machined polypropylene construction
- 1/4" hose barb attaches to suction tubes
- Rigid polypropylene pipe overcomes problems due to flexible tubing
- 3/4" threaded collar slides along the pipe for easy depth adjustment
- Easy to unscrew and attach to another container

16" Safe Flow Pail Stick™ #491617

- Fits threaded 3/4" container lid knockouts
- Depth is adjustable up to 16"
- Ideal for 5-gallon pails
- Includes a 1/4" hose barb and Hastelloy strainer

21" Safe Flow Pail Stick™ #491622

- Same overall design and options as the 16" Safe Flow Pail Stick™
- Depth is adjustable up to 21" - fits tall 7-gallon containers

5-Gallon Pail with 16" Safe Flow Pail Stick™ #709105, #709105-SQ

- Features a 5-gallon pail with 3/4" knockout lid and 16" Safe Flow Pail Stick™
- Choice of round or square pail
