

W-50SS Sanitize / BPSS Foam Hose Drop Station

MODEL # 912120

OVERVIEW

The W-50SS Sanitize / BPSS Foam Hose Drop Station is designed for use when the foaming and sanitizing chemicals are not compatible. This unit applies one chemical as foam and another as a high-volume, sanitizing spray. This venturi injection system uses boosted water pressure (125 - 350 PSI) to draw and blend chemical concentrates into the water streams to create accurately diluted solutions using precision metering tips to control chemical usage. Rich, clinging foam is created by injecting compressed air into the foaming solution to greatly increase volume and coverage ability. The foaming solution is then projected through the foam hose and fan nozzle at distances up to 13 feet. Sanitizer solution, or any other chemical, is projected as a "flooding spray" using the adjustable spray pattern trigger gun.

Key Features

- Designed to foam and sanitize medium to large surfaces
- 2 hoses for incompatible foaming and sanitizing chemicals
- Projects a medium volume of rich, clinging foam which increases chemical contact time and effectiveness
- Foaming expands the chemical and reduces over-application by providing visual assurance of coverage
- Fan pattern foam nozzle for fast coverage (up to 13' range)
- Covers up to 500 sq ft (46.5 sq m) in 1 minutes
- Adjustable foam consistency (wet/dry)
- Dilutes concentrated sanitizers to the lean ratios required for no-rinse applications in food plants
- Sanitizer is projected as a "flooding spray" through the trigger gun with an adjustable cone/stream spray pattern
- All stainless steel components ensure durability and years of trouble-free performance
- Available with a rinse function (#912127)
- See other boosted water pressure foamers in [Catalog 2](#)

Includes

- Stainless steel mounting bracket
- Machined stainless steel foamer and sanitizer bodies
- Stainless steel inlet ball valves
- 20 color-coded precision metering tips to set dilution ratios
- 50' foam hose, polypropylene foam wand and fan nozzle
- 50' sanitize hose & heavy-duty trigger gun

OPTIONS

Stainless Steel Hose Racks

Large Stainless Steel Hose Rack # 224150

Stainless Steel Jug Racks Available

Safe Flow Lid™ for 1 Gallon Jugs

Lid, Suction Tube, and Strainer # 709101

Alternate Check Valves - EPDM Standard

Check Valve, Chemical, SS, Viton, 1/4" # 491324-V

Check Valve, Air, SS, 1/4" MM (Viton / Hast) # 491306

APPLICATIONS

- Food & Beverage
- Animal Health
- Industrial
- Pharm/Bio
- And Many Other Applications!

REQUIREMENTS

Chemical Concentrate

Water

Temperature up to 180°F
 Pressure 125 to 350 PSI
 Flow 5.6 GPM @ 250 PSI
 Supply Line 3/4"

Compressed Air

up to 4 CFM

Hose

Sanitize 1/2" ID x 50'
 Foam 3/4" ID x 50'

Nozzle

Sanitize Trigger Gun, 1/2"
 Foam 65300

Dilution Ratio Range @ 250 PSI

Sanitize 1,284:1 to 7:1
 Foam 679:1 to 6:1
