

# Pump Fed SS Foamer

MODEL # 920115

## OVERVIEW

The Pump Fed SS Foamer is a medium volume foam applicator for projecting ready-to-use foaming chemicals on to any surface up close or at distances up to 12 feet. This stainless steel unit receives ready-to-use chemical solution from a central chemical feed system and creates rich, clinging foam by injecting compressed air into the solution to greatly increase volume and coverage ability. The foam is then projected through the discharge hose, wand and fan nozzle.

## Key Features

- Machined stainless steel foamer body for maximum chemical resistance and durability
- Receives ready-to-use chemical solution from a central chemical feed system
- Designed for foam cleaning medium to large surfaces
- Projects a medium volume of rich, clinging foam which increases chemical contact time and effectiveness

- Fan pattern nozzle for quick coverage (up to 12' range)
- Covers up to 500 sq ft (46.5 sq m) in 2 minutes
- Adjustable foam consistency (wet/dry)
- Chemical resistant wetted components ensure years of outstanding performance with minimal maintenance
- Industrial-strength design holds up in tough environments
- Available with a polypropylene body (#920105)
