

Rinse / Pump Fed Foam Hose Drop Station

MODEL # 920118

OVERVIEW

The Rinse/Pump Fed Foam Hose Drop Station is a medium volume foam applicator for projecting ready-to-use foaming chemicals and for rinsing. This unit receives ready-to-use chemical solution from a central chemical feed system and creates rich, clinging foam by injecting compressed air into the solution to greatly increase volume and coverage ability. The foam is then projected through the discharge hose and fan nozzle on to any surface up close or at distances up to 12 feet. Rinse through a separate hose with a unique and powerful 4-hole nozzle.

Key Features
