

# 4-Way FPS Transfer System

MODEL # 941604

## OVERVIEW

The 4-Way FPS Transfer System is a chemical transfer system for filling any sized container with chemical concentrate or ready-to-use solution. This unit uses compressed air to power FloJet air pumps which draw 4 chemicals from bulk containers and dispense them into any other containers through 15 foot discharge hoses and trigger guns.

## Key Features

- Transfers chemicals from bulk containers into any sized container or cleaning equipment safely and without mess
- Increases employee safety and labor efficiency
- Transfer chemical concentrate or ready-to-use solution
- Quick, easy set up
- Requires only compressed air to operate
- Pumps mounted on a unique Lafferty quick-release, stainless steel bracket to easily replace pumps
- The convenient positive shut-off trigger gun prevents the unit from running unattended
- Discharge hose stabilizer coupling protects pump discharge outlet from abuse
- Chemical resistant wetted components ensure years of outstanding performance with minimal maintenance
- See transfer systems for up to 5 chemicals and other chemical management systems in [Catalog 9](#)

## Includes

- Polypropylene mounting panel
- Air regulator and air pressure gauge
- 4 - FloJet AODD Pump with Santoprene diaphragms
- 4 - Stainless steel quick release brackets
- 4 - 15' chemical pickup tubes and discharge hoses
- 4 - Polypropylene trigger guns with stainless steel and EPDM internal components

## OPTIONS

### Stainless Steel Hose Racks

Small Stainless Steel Hose Rack # 224145

### Drum & Tote Stick Lengths & Seal Materials

Drum Stick, 33" (Viton or EPDM) # 491643 / 491643-E

Drum Stick, 48" (Viton or EPDM) # 491648 / 491648-E

Drum Stick, 54" (Viton or EPDM) # 491645 / 491645-E

Tote Stick, 33" (Viton or EPDM) # 491653 / 491653-E

Tote Stick, 48" (Viton or EPDM) # 491654 / 491654-E

Tote Stick, 54" (Viton or EPDM) # 491656 / 491656-E

### Alternate Seal Materials - Santoprene/EPDM Standard

Upgrade: Viton Air Pump & Viton Trigger Gun # 941600-VT

Upgrade: Kalrez Air Pump & Viton Trigger Gun # 941600-KT

### Alternate Hose Discharge

Upgrade: Stainless Steel Ball Valve # 941600-X

## APPLICATIONS

- Filling Floor Scrubbers/Tank Foamers
- Agriculture/Horticulture
- Animal Health
- Vehicle Wash
- Dairy
- Food & Beverage
- Hatchery
- Industrial
- Janitorial/Sanitation
- And Many Other Applications!

## REQUIREMENTS

Chemical Concentrate or Ready-to-Use Solution  
Compressed Air up to 4 CFM per pump
