

Model 20 SS Hose End Sprayer

MODEL # 969520

OVERVIEW

Designed for 2.2–5.5 GPM pressure washers. The Model 20 Stainless Steel Hose-End Sprayer is a chemical spray applicator for quickly diluting and applying virtually any liquid chemical. This venturi unit draws chemical concentrate into the water stream to create an accurately diluted solution. The solution is then projected as a fan pattern chemical spray on to surfaces up close or at a distance.

Key Features

- Designed for 2.2–5.5 GPM pressure washers
- Quickly dilutes and applies chemicals as a spray
- To rinse, simply quick disconnect the entire assembly and replace your original rinse nozzle
- Use the included fan pattern nozzle for wide coverage or remove it for increased range
- Draws chemical from any container
- Your equipment is protected because no chemical passes through the pump, hose or gun
- Industrial-strength, stainless steel design ensures durability and reliable performance
- Available with an attached bottle (#969521-B)
- See other Lafferty high pressure applicators in [Catalog 3](#)

Includes

- Machined solid stainless steel sprayer body
- 1/4" quick connect plug for connecting to your gun
- 10' chemical suction tube and strainer
- 20 color-coded precision metering tips to set dilution ratios
- Fan nozzle (removable for increased range)

OPTIONS

- Large Stainless Steel Hose Rack # 224150
- Small Stainless Steel Hose Rack # 224145

Pressure Washer Hose & Trigger Gun

- HP 3/8" x 50' Hose & Trigger Gun Kit # 807069

Safe Flow Lid™ for 1 Gallon Jugs

- Lid, Suction Tube, and Strainer # 709101

REQUIREMENTS

- Water Temperature** up to 180°F
- Pressure Washer** 2.2 - 5.5 GPM
- Supply Hose** 3/8" ID minimum

APPLICATIONS

- Pressure Washer Cleaning
- Vehicle Washing
- Animal Health
- Concrete
- Dairy
- Food & Beverage
- Hatchery
- Hood & Vent
- Industrial
- Janitorial/Sanitation
- Metal Processing
- Military
- Pharm/Bio
- And Many Other Applications!
