

# Pump Fed Foam / Rinse / Foam Hose Drop Station

MODEL # 920315

## OVERVIEW

The Pump Fed Foam/Rinse/Foam Hose Drop Station is a medium volume foam applicator for projecting 2 ready-to-use foaming chemicals and for rinsing. This unit receives 2 separate ready-to-use chemical solutions from separate central chemical feed systems. Rich, clinging foam is created by injecting compressed air into the solution to greatly increase volume and coverage ability. Each foaming solution is then projected through a separate foam hose and fan nozzle on to any surface up close or at distances up to 12 feet. Rinse through a separate hose with a unique and powerful 4-hole nozzle.

## Key Features
