

# Uni-Body W-100 Spray-All

MODEL # 975070

## OVERVIEW

The Uni-Body W-100 Spray-All is a water-driven, high volume spray applicator for applying chemical solutions to a variety of surfaces. This venturi injection system uses standard city water pressure (35 - 125 PSI) to draw and blend chemical concentrate into the water stream. Precision metering tips are used to create an accurately diluted solution which is projected through the discharge hose and fan nozzle as a uniform "flooding" spray. With a flow rate of around 4 gallons per minute, this unit is great for spraying down large areas or objects.

## Key Features

- The machined polypropylene uni-body design is both compact and cost-effective
- Creates a high volume, flooding spray
- Designed for spraying large surfaces and objects
- Fan pattern nozzle for even coverage
- Chemical resistant wetted components ensure years of outstanding performance with minimal maintenance
- Use it anywhere 35-125 PSI water is available
- Available with a stainless steel mounting bracket (#970270)
- See other Lafferty Spray-Alls and more chemical applicators in [Catalog 1](#)

## Includes

- Machined polypropylene injector body
- Inlet and discharge ball valves
- 20 color-coded metering tips for setting dilution ratios
- 50' discharge hose, polypropylene wand and stainless steel fan nozzle
