

Portable 20 Gallon Liberty LF Foamer

MODEL # 941220-LF

OVERVIEW

The Portable 20 Gallon Liberty LF Foamer is a "low volume" foam applicator for projecting foaming chemicals on to any surface up close or at distances up to 9 feet. This unit features an all stainless steel 4-wheel cart and lockable enclosure and uses a cost-effective Flojet air-operated, double-diaphragm pump to draw ready-to-use chemical from the 20 gallon tank. It injects compressed air into the solution to greatly increase volume and coverage ability and projects rich, clinging foam through the discharge hose, wand and fan nozzle.

Key Features

- Draws pre-diluted chemical from the 20 gallon tank
- Cost-effective Flojet AODD pump
- The chemical flow rate is regulated by the foamer body to match the low-range of the air pump's specified operating range which protects the pump from running at maximum capacity
- Projects a "low volume" of rich, clinging foam which increases chemical contact time and effectiveness
- Foaming expands the chemical and reduces over-application by providing visual assurance of coverage
- Fan pattern nozzle with 9' foam throw
- Covers up to 500 sq ft (46.5 sq m) in 4.5 minutes
- 33 minutes of foaming time per 20 gallons of solution
- Adjustable foam consistency (wet/dry)
- Chemical resistant wetted components ensure durability and years of reliable service
- Balanced weight distribution to prevent tipping
- Available in five color-coded configurations
- Available with a higher flow rate (#941220)
- See other air-operated foamers and sprayers in [Catalog 4](#)
