

# Portable SS PD XVMV Foamer

MODEL # 944201

## OVERVIEW

The Portable SS PD XVMV Foamer is an extra-high volume foam applicator that projects pre-diluted foaming chemicals on to any surface up close or at distances up to 40 feet. It is powered solely by compressed air. A stainless steel 1" air pump, with Teflon diaphragms, draws pre-diluted chemical from a static tank. Compressed air is injected into the solution to greatly increase volume and coverage ability. An incredible volume of rich clinging foam is projected through the hose, wand and nozzle.
