

Portable 5 Gallon W-20SS Spray-All

MODEL # 918954

OVERVIEW

The Portable 5 Gallon W-20SS Spray-All is a water-driven spray applicator for applying chemical solutions to a variety of surfaces at 3.11 GPM @ 700 PSI. Featuring an all stainless steel cart assembly, this stainless steel venturi injection system uses high water pressure (400 - 1000 PSI) to draw and blend chemical concentrate into the water stream using precision metering tips. The accurately diluted solution is then projected through the discharge hose, trigger gun, wand and fan nozzle.
