AF Teat Foam Sprayer

MODEL # 935222

OVERVIEW

The AF Teat Foam Sprayer is a unique foam applicator for spraying foaming teat dips. This pump-driven system uses compressed air to power an AODD pump to draw and pressurize ready-to-use teat dip. The solution flows through the discharge hose and trigger gun to the "airless" foam nozzle which draws in atmospheric air to project a low volume of wet, clinging foam. The foam pattern width is adjustable.

Key Features

- Applies teat dips quickly and effectively using an adjustable spray pattern foam nozzle
- Projects the perfect amount of wet, clinging teat dip foam
- Lightweight hose-end assembly allows for easy handling
- Positive shut-off trigger gun prevents the unit from wastefully running unattended
- Easy to use, no adjustments necessary
- Chemical resistant wetted components ensure years of outstanding performance with minimal maintenance
- Available as a compressed air assisted foamer (#935200)
- Available with a teat foam cup (#935208)
- See other configurations of Lafferty compressed air driven foamers in Catalog 4

Includes

- Stainless steel enclosure
- FloJet air pump
- 25' discharge hose & trigger gun
- Machined polypropylene "airless" foam nozzle

OPTIONS

Stainless Steel Hose Racks

Small Stainless Steel Hose Rack	# 224145

Stainless Steel Jug Racks

2 ½ Gal. (8 ½" x 10 ½")	# 224210
5 Gallon (12" x 12") Round/Square	# 224215

REQUIREMENTS

Ready-to-Use Chemical Solution

Compressed Air	up to 1.5 CFM
Hose	3/8" ID x 25'
Nozzle	#6 Bullet Foam Nozzle

APPLICATIONS

- Dairy
- Agriculture/Horticulture
- Animal Health
