

Uni-Body Micro Foamer With Compressor

MODEL # 975535

OVERVIEW

The Micro Foamer is an all-in-one, low-volume foam applicator featuring a stainless steel enclosure and 120V air compressor with GFI protection. This portable venturi injection system uses city water pressure (40 - 80 PSI) to draw and blend chemical concentrate into the water stream to create an accurately diluted solution using precision metering tips. The on-board compressor generates compressed air that is injected into the solution to increase volume and coverage ability, creating rich, clinging foam that is projected through the discharge hose, wand and fan nozzle.

Key Features

- Small size for maximum portability (only one foot tall)
- Requires only water and electric hookups
- Quiet, 120V air compressor with GFI protection
- Projects a low volume of rich, clinging foam which increases chemical contact time and effectiveness
- Foaming expands the chemical and reduces over-application by providing visual assurance of coverage
- Venturi action draws chemical concentrate from any container
- Adjustable foam consistency (wet/dry)
- Chemical resistant wetted components ensure durability and years of reliable service
- See other air-operated foamers and sprayers in [Catalog 4](#)

Includes

- Locking, stainless steel enclosure with integrated handle and hose rack
- 120V air compressor with regulator/filter & 8' cord
- Water inlet ball valve with pressure/flow gauge
- 6' chemical suction tube and strainer
- 10 color-coded precision metering tips to set dilution ratios
- Machined polypropylene foamer body
- 20' discharge hose assembly, stainless steel ball valve, wand and stainless steel fan nozzle

OPTIONS

Alternate Air Check Valve - EPDM Standard

Check Valve, Air, SS, (Viton/Hastelloy)	# 491306-1
TL Check Valve, Solution, PVC / Viton, 1/4"	# 491440-V

REQUIREMENTS

Chemical Concentrate

Water

Temperature	up to 160°F
Pressure	40 to 80 PSI
Flow	0.35 GPM @ 50 PSI
Supply Line	1/2"

Compressed Air

up to 0.75 CFM

Hose

1/2" ID x 25'

Nozzle

6540

Electric

120V

APPLICATIONS

- Hood & Vent Cleaning
- Supermarkets
- Agriculture/Horticulture
- Dairy
- Food & Beverage
- Industrial
- Janitorial/Sanitation
- Pharm/Bio
- And Many Other Applications!
